D/PERS informed [] that the O/DCI confirmed that the DCI attended yesterday's DPC meeting at OMB and Sen. Roth outlined their retirement proposal as scheduled.

The DCI made a brief comment to the effect that the Agency needs a special program to meet our special needs and apparently did not discuss specifics.

Interestingly, Mr. Wright of OMB added a statement that OMB recognized CIA's special circumstances and was working with the Agency to develop appropriate coverage.

Sen. Roth was reported as stating that their bill specifically avoided inclusion of the CIARDS and Foreign Service retirement systems in recognition of these special programs. Apparently the retirement subject was not discussed in depth.

We have no information as to why Sen. Roth had the retirement plan placed on the agenda nor who else attended the DPC meeting.

O/DCI apparently felt that Sen. Roth's exclusion of CIARDS and the FSRS was an affirmation sign as regards CIA interests. Our reading of the position of Sen. Roth and Stevens is simply that they are aiming at trying to sell their new plan to cover the "civil service" jurisdictions - which as it stands now still includes CIA's non-CIARDS employees.

While the feedback on today's meeting is rather "light," the OMB statement of support - albeit generalized - for CIA's needs for a system is encouraging.
